Note: iMenu is a different name that I put for easier to read between Menu Home Page and Menu in side the Home Page.

-Home page

    -Login

        -(Yes) Sign in

            -(Yes) Load personalization (whatever saved)

                -iMenu

        -(No) Return to the iMenu

-iMenu (Display)

    -Campus cafe

        -(choose) Campus cafe link: https://tab-web.scansoftware.com/cafeweb/login

        -(close) to exit.

            -back to iMenu.

    -Canvas

        -(choose) Canvas link:

        -(close) to exit.

            -back to iMenu.

    -Cafe Menu

        -(choose) Load new page

            -(API) handle webscape

                -Related with backend to handle

            -(exit button / home button) - redirect to iMenu

          OR

        -(choose) Cafe menu link: https://oncampusdining.com/tabor/menus/

        -(close) to exit.

            -Back to iMenu
